Caged Hens are Only Way

Fred Hataway of Kinston, Rt. 1, is shown with Jake Lubert Morrow of Morrow Gin & Peanut Co. looking over the chicks he is raising to start out under the

On the Purina Caged Hen plan, Mr. Hataway says, "The Purina Caged Hen way is the only way I could get into the chicken business. A guaranteed market for my eggs, services in delivering feed once a week, vaccinating and worming provide an insurance for my investment. Otherwise with all my work on cotton and peanuts, I could not take on the additional work. I have only started my caged hen program but have enough / faith in my investment to have built my house so that it can be extended and the capacity expanded to meet my market I find and any additional capital I acquire. My original construction costs on the chicken house are about \$350. All work of building was done by myself. I could not ask for any better advisory service. Nobody can compare with Purina on servicing and providing a market. I can't see any more that they could

COSTS LESS TO START RIGHT

You, too, can get started raising caged hens and have a guaranteed market for your eggs. Besides this mar ket you have the advantage of many services offered in our program. This includes vaccination at one week, and 10 weeks for fowl pox and Newcastle. Worming is done at 9 and 20 weeks and in addition our representative will call by your farm to check on the condition of your flock in order to help you keep disease losses

Eight Families Receive F. H. A. Assistance in Becoming Farm Owners

low-friction SIX!

FORD'S NEW I-BLOCK SIX IS THE MOST MODERN SIX IN THE

INDUSTRY...THE ONLY LOW-FRICTION SIX IN ITS FIELD!

Why are more and more folks who like sixes swinging to Ford's 115-h.p. I-block Six?

Because they're getting the most modern six in the industry . . . and for less money than

practically any other six in America. Ford's short-stroke, low-friction design means less

gas waste, less wear and longer engine life. The extra-deep, "I-shaped" block means a

more rigid, quieter engine. And the new high-turbulence combustion chambers, teamed

with Ford's exclusive Automatic Power Pilot, bring you even more "GO" per gallon.

BIG SPLASH WON'T BEAT "BIG JIM" himself to be a worthy opponent for Fol- the hydro-electric facilities in the Coose som and is coming to be recognized as the River Basin be held up, at least temporar-No. 2 man in the race. Everyone concedes ily. "Big Jim" the top spot.

stunt that has made him stand out among FEDERAL development of the Coosa River the other candidates, he doesn't have the Basin." Maybe some people would rather political foundation on which to launch a have the project financed with taxpayer's campaign to beat Ex-Governor J. E. Folsom money instead of private capital but that evein if the voting would go into a runoff certainly is not the American way. Basical-(which is unlikely).

Until the past few years Faulkner has spent his time at the newspapering game, was elected mayor of Bay Minette and then Senator to the state legislature from his district. Good work in these jobs pushed him into a contender's position for the governorship. But being a youthful contender and champ are two different things.

Compare this to "Big Jim's" background of public service and political experience. On his road to state and national prominence the ex-governor has fought and lost many preliminary bouts.

Politically speaking Folsom is from the old school where the rule was "to get votes, know floks." Starting as a youngster, he went with his father who campaigned successfully for Coffee County commissioner and tax collector for four terms. He also saw his uncle run victoriously for Coffee County sheriff.

Still the ex- and next- governor suffered defeat at the polls several times before finding the right combination and rolling into the governor's office. The veteran Henry B. Steagall beat him out in races for Congress in 1936 and 1938. After his Congressional defeats Jim Folsom moved to Cullman where he became North Alabama representative for Emergency Aid Insurance Co. In 1942 he ran for governor, carried eight counties but Tost to

Then his turn came. Unorthodox campaigning with a hill billy band, hearty handshaking and indefatigable energy put the six-foot eight inch Coffee Countian into the governor's chair. At 38, he was the youngest chief executive the state ever Boutwell, Mrs. W. B Thomas, Mrs. Kate elected, and the most popular at the polls, Fuller, Mrs. Milford Head and Mrs. Leon running up the largest vote ever garnered Wilson. Ladies in the community brought by an Alabama gubernatorial candidate. the cakes. It was another case of the P-T. done some strenuous training. Long before the March 1 filing date for candidates, he had made many talks at cross roads and small communities in every section of the state. There's no way of telling how many

of school houses and supporters filed past him on the way out. On May 4 those handshakes will pay off in votes, much more so than the temporary splash of radio and TV campaigning which is impersonal and must be heard and seen at a set time and is quickly for-

hands he has shaken as he stood at the door

Faulkner has stepped into the ring with a political veteran at his peak. Like many another novice, he must

my Faulkner has been making a big splash Association of Cooperatives in Montgomer in the governor's race with his radio and sent a request to the state's congression TV talkathons. In the heavily populated delegation asking that action on plans of areas around the cities Faulkner is proving the Alabama Power Company to develop

The Association officers urge "com-While Faulkner pulled a spectacular plete and careful consideration of plans for ly that is socialism, defined in the dictionary as a state or system where there is no pri-

It is a sad fact that anyone should even suggest spending tax money where private industry has offered to develop the state's natural resources under a sound program, a program appoved by U. S. Army engineers as adequately protecting the federal interest.

What more can be asked? A utility company, strictly regulated by state and federal agencies, offers a sound proposa where \$100 million will be spent in Alabama for labor and materials at no cost to the taxpayer. Yet there are those who seek to "temporarily withold action" on these

The Alabama Power Company plans should not be tabled even momentarily because of this request. Rather the Alabama Congressional delegation should get behind the proposal and expedite passage of the needed legislation. It will mean that much tax' money saved to reduce the national

VICTORIA POLITICAL RALLY Persons going to the political rally and chicken supper at Victoria Friday night had to get there on time in order to get any chicken. NATURE GIRL

Hould you trade a Penny for a Dollar?

You can if you use Natural Chilean Nitrate of Soda for your top-dressing and side-dressing needs. It costs a little more because it's worth more. But the difference in cost usually can be measured in pennies per acre, while the difference in value often amounts to dollars per acre.

Chilean "Bulldog" Soda gives you generous extra value. The nitrogen is 100 per cent nitrate. It's 100 per cent available (quick-acting); 100 per cent dependable. The minor elements make crops stronger, healthier. The sodium-26 pounds in every 100-pound sack-is a key to maximum returns on your entire fertilizer investment. It offsets the bad effects of acidforming fertilizers...increases the efficiency of mixed fertilizers containing them. It releases "locked-up" potash in the soil...increases the availability and efficiency of soil phosphate...reduces potash, calcium and magnesium losses by leaching...develops larger, deeper root systems.

Sodium builds up the productivity of your land-more each year. It's an essential element for some crops...beneficial to most and necessary,

for maximum yields of many. Pennies-per-acre difference in cost may mean dollars-per-acre difference in value to you. Chilean "Bulldog" Soda is the best fertilizer your money can buy. Use it for all of vour top-dressing and side-dressing needs.

THANK YOU! for Your Endorsement of Our Proposed COOSA RIVER DEVELOPMENT

Our proposal to complete the development of the Coosa River between Wetumpka, Alabama and Rome, Georgia, has been endorsed to date by 155 organizations and many

We are publishing this advertisement to express publicly our appreciation for the resolutions of the organizations listed below, and others, and for the formal and informal expression of good wishes, including those from many newspapers which have given their endorsement.

We are ready to start immediately with engineering and other work necessary to begin actual construction, which will bring about the expenditure for labor and materials of approximately \$100,000,000, all of which will be furnished by the Company.

For our proposal to be carried out, legislation by the Congress is required. The Corps of Engineers, U. S. Army, and the; Company agreed on March II upon the provisions to be in-

cluded in such legislation, and on March 15 a copy was sent to Senators Hill and Sparkman and the Congressmen from Alabama, with a memorandum signed by Major General B. L. Robinson, Deputy Chief of Engineers, stating that "These provisions are satisfactory to me, and I believe they adequately protect the federal interest."

We are hopeful that necessary legislation making this development possible will be introduced in the Congress at an early date by Alabama's Senators and Congressmen.

We believe that this project will be of untold benefit to the people of Alabama.
